## **Suit and Shoe Sizing Guide**

**Please use this chart as an aid to selecting your correct size. It is a guide and can only be used for indication purposes. However, we hope you will find it useful.**

**All our suits are sized by height. They are generously cut and are meant to be baggy leaving lots of room. The trousers are left open and not cuffed**

**The shoes are sold by European sizing system only. There are no width fittings so if you have very wide feet, you may choose to select a larger size to ensure a comfortable fit.**
